

The perfect solution  
to beautiful nails

# Dries Instantly

**Clinically tested:** With excellent results Bio Sculpture® Gel makes nails beautiful, flexible and strong - naturally.

## Quick & easy

Easy to apply and easy to remove, within 15-20 minutes.

## Strong

Bio Sculpture® Gel is a nail treatment applied as a coating to your own nails to strengthen and condition them.

## Dries instantly

Applied onto the natural nail, over tips or sculptured extensions. Bio Sculpture® Gel dries instantly under a UVA curing lamp, in your choice of colour or natural finish.

## Applies clean and comfortably

With low fumes and odours and almost no buffing dust, you'll enjoy seeing your nails transformed to their exceptional potential.

# Easy to Remove

## Durable, flexible and no more chipping

Long-wearing and chip-proof, your Bio Sculpture® Gel treated nails keep their well-manicured look long after application. Excellent on toenails, with no worn or ragged edges.

## Functional and Fashionable

Choose from 140 Permanent Colours, Clear or French. As your nails grow, nail polish can be used to colour the new growth until it's time for a fill at your salon. Apply coloured polishes over the Permanent Colour Gel. This can be removed easily with our specially formulated Dual Cleanse, and you are back to your Permanent Colour Gel.
